Care Facility

Emergency Planning Seminar

October 16, 2015

Paso Robles Culinary Institute

Questions? Call 785-0132

EMERGENCY PLANNING FOR CARE FACILITY PROVIDERS

Is your facility ready for an emergency?

Are all of your staff and residents prepared to react appropriately when faced with a sudden evacuation or shelter in place situation?

What is the role of the licensing agency in an emergency?

What does the licensing agency expect from your facility?

How will you handle a utility disruption and what is the process to restart utilities?

When the emergency is over, how will you return to "business as usual" at your facility?

This seminar will prepare facility staff to answer these questions and more as attendees work through a table-top emergency drill, hear from subject matter local experts and share best practices in emergency planning.
